

**Specification**

|   |   |
|---|---|
| Nominal Voltage                         | 3 V   |
| Nominal Capacity                        | 220mAh (continuous discharge with 30kΩ load, down to 2V cutoff at 23°C)   |
| Max Continuous Discharge Current (20°C) | 4mA   |
| Max Pulse Current                       | 12mA  |
| Structures                              | Manganese dioxide cathode, lithium anode, organic electrolyte, polypropylene separator and stainless steel cell can and cap, etc. |
| Self Discharge Rate (per year)          | ≤ 2%  |
| Temperature Range                       | -20 to 60°C   |
| Approximate Weight                      | 3.2g  |

**Dimensions: mm (inch)**
